JOSIAH TURNER, Jr., EDITOR.

### "AND HE PASSED TO SHUNEM."

The word of my text, my hearers you will find in 2 Kings, iv chapter, verse 8.

"And he passed to Shunem."

Take to heart the lesson our text teaches, and when temptations try you, and evils lie in wait to ensnare you, "pass to Shun'em."

When you see men of wrath fighting and breaking heads and sticks, and hear them cursing and swearing—mind the words of the text, and "pass to Shun'em."

And if you should happen to go to the Cosmopolitan Corner—and see men drinking beer, that will bring them to a bier—and gin slings that will sling down the strongest, and smashes that will smash a man's fortune faster than commission merchants who advance supplies on the last crop—ah—oh, "pass on to Shun'em."

But, oh, my hearers! if you should go down to New Orleans—that modern Sodom and Gomorrah, where I have lately been—ah—and when the gas lights are flaming, and, ah, glimmering, and the cabs are dashing along the streets—and obliging drivers are offering to carry you where only steamboat captains and the first gentlemen go—ah—and St. Charles street is on a rip and roar—ah—and the brass bands are crashing music from balconies—and men in little boles are ready to sell you little tickets to go see the Black Crooks dance with nothing to wear—and make spectacles of themselves—ah—oh, my friends, "pass on to Shun'em."

And, ah! if later in the evening, with a very particular friend—you go up stairs into most splendidly furnished rooms—ah—and see the supper table spread with delicacies from every clime and country—and teal duck, and snipes, and yellow legged pullets and pheasants, and all that fish, flesh and fowl can afford—and champagne and brandy, and Burgundy and Chateau Lafitte, older than Waterloo—and nothing to pay and all free—and a nice gentleman with rings on his fingers, and a diamond breastpin, playing with little spotted pasteboards, and another turning a machine and dropping in a little ball that rolls round and round and stops sometimes on the eagle bird, and oftener don't—and when the players put down more than they take up—and men sometimes win, but mostly don't—ah—oh, "pass on to Shun'em."

And in conclusion, my friends, when the world, the flesh, and the devil—ah—lie in wait for you—"pass on to Shun'em."

SYMPATHY.—Till we have suffered on it, we are scarcely aware how much the sum of human happiness in this world is indebted to this one feeling—sympathy. We get rich artlessness and vigor, we scarcely know how or when, from mere association with our fellow men, and from the looks reflected on us of gladness and enjoyment. We catch inspiration and power to go on, from human presence and from cheerful looks. The workman works with added energy having others by. The full family circle has a strength and a life peculiarly its own. The substantial good and the effectual relief which men extend are trifling. It is not by those but by something far too costly that the work is done. God has invested it by a much more simple machinery. He has given to the weakest and the poorest, power to contribute largely to the common stock of gladness. The child's smile and laugh are mighty powers in this world. When bereavement has left you desolate, what substantial benefit is there that makes condolence acceptable? It cannot replace the loved ones you have lost. It can bestow upon you nothing permanent. But a warm hand has touched yours, and its thrill told you that there was a living response there to your emotion. One look, one human sight has done more for you than the costliest present could convey.—*Lyndbury News.*

DARK HOURS.—There are dark hours that make the history of the brightest year. For not a whole month in any of the thousand of the past, perhaps, has the sun shone brilliantly all the time. And there have been cold and stormy days in every year. And yet the mists and shadows of the darkest hours were dissipated, and flitted heedlessly away. The coldest of the ice fetters have been broken and dissolved, and the most furious storm loses its power to alarm.

What a parable is all this of human fear of our inside world, where the best works at its destined labor. Here, too, we have the overshadowing of dark hours, and many a cold blast chills the heart to its core. But what matters it? Man is born a hero, and it is only by darkness and storms that heroism gains its greatest and best development and illustration; then it kindles the black cloud into a blaze of glory, and the storm bears it rapidly to its destiny. Despair not. Disappointment will be realized. Mortifying failure may attend this effort and that one: but only be honest and struggle on, and it will all work well.

SABBATH PIETY.—Here is a bit of spicy suggestion from some anonymous source: "There is a mystery about the effect of the weather on piety. Sabbath heat seems hotter; Sabbath cold colder, and Sabbath rain wetter than that of any other day. For the same measure of heat or cold or rain on a week day will not keep him from his usual business. We need a Sabbath almanac, calculated for our churches, that will show by its weather scale when it will be safe for a vigorous Christian to expose himself on the Sabbath by going to the house of God. Such an almanac would enable pastors and superintendents of Sabbath schools to know whom they may depend on in church, Sabbath schools and prayer meeting. I have recently been examining microscopic views of the different snow flakes, a hundred or so of them. I would suggest to some of our curious savans an examination of Sabbath snow, to see if it has a peculiarly sharp and injurious crystal."

A BRIDE BURNED TO DEATH.—A most distressing accident happened near Cynthiana, Kentucky, on Wednesday last resulting in the death of a very estimable young woman. Mrs. Thomas Lemon, who had been married but about a week undertook to kindle a fire in her stove with coal oil, when the flames leaped up and communicated with her dress. In an instant all her clothes were in a blaze, and there being no aid at hand, she ran out into the yard and rolled over several times in the snow, but the garments continued to burn until the last vestige of them was consumed, and the body of the unfortunate woman was baked almost to a crisp. Death put an end to her sufferings in a few minutes after the terrible occurrence. Deceased was sixteen years of age.

### A PROCLAMATION.

By His Excellency, the Governor of North Carolina.

EXECUTIVE DEPARTMENT,
Raleigh, March 7, 1870.

By virtue of authority vested in me by the Constitution of the State, and by virtue of an act passed at the present session of the General Assembly, entitled "An act to secure the better protection of life and property," ratified the 25th day of January, 1870, and for the reason that the civil authorities of the county of Alamance are not able to protect the citizens of said county in the enjoyment of life and property, I hereby proclaim and declare that the county of Alamance is in a state of insurrection.

On the 26th of November 1869, a citizen of the United States, who was engaged in teaching a school in said county, was taken from his house by a band of men armed and disguised, and was, by them, dragged by the hair of his head and severely beaten and scourged.

On the night of the 26th of February, 1870, a citizen of said county was taken from his house by a band of men armed and disguised, and was, by them, hanged by the neck until he was dead on the Public Square in the town of Graham, near the Court House. And more recently the Postmaster at Company Shops, in said county, an officer of the Government of the United States was compelled to flee the county for protection, and while absent, a band of men armed and disguised visited his house with the purpose, doubtless, of taking his life; and while within a short distance of Federal troops stationed in said county, not to oversee or intimidate good citizens, but to preserve the peace and to protect the innocent and the law-abiding. In addition to these cases, information has been received at this department that peaceable and law-abiding citizens of the county aforesaid have been molested in their houses, have been whipped, shot, scourged, and threatened with further violations of violence and outrage unless they would conform to some arbitrary standard of conduct set up by those disguised assassins and murderers.

I have issued proclamation after proclamation to the people of the State, warning offenders and wicked or misguided violators of the law to cease their evil deeds; and, by leading better lives, propitiate those whose duty it is to enforce the law. I have invoked public opinion to aid me in repressing these outrages and in preserving peace and order. I have wished to see if the people of Alamance would assemble in public meeting and express their condemnation of such conduct by a portion of the citizens of the county, but I have waited in vain. No meeting of the kind has been held. No expression of disapproval even, of such conduct by the great body of the virtuous has yet reached this department; but on the contrary, it is believed that the lives of citizens who have reported these crimes to the Executive have been threatened, and it is further believed that many of the citizens of the county are so terrified that they dare not complain, or attempt the arrest of criminals in their midst. The civil officers of the county are silent and powerless.

The laws must be maintained. These laws are over all. Every citizen, of whatsoever party or color, must be absolutely free to express his political opinions, and must be safe in his own house. These outrages and these violations of law must and SHALL cease. Assassins must and SHALL be brought to justice. The whole power of both governments, State and Federal, is pledged to this, and that power will be exerted. Criminals who may escape to counties adjoining Alamance will be pursued, and if not delivered up by the civil authorities of said counties, or if sheltered or protected in said counties, with the knowledge of the civil authorities, the said counties will also be declared to be in a state of insurrection.

I earnestly appeal to all good citizens to aid the civil authorities in maintaining peace and good order, and to support me in my purpose to protect life and property without regard to party or color.

Done at the City of Raleigh this 7th day of March, 1870, and in the 94th year of our Independence.

W. W. HOLDEN,
Governor.

By the Governor:
W. H. SIMMONS, Private Secretary.

TO CONTRACTORS.

OFFICE PEN. COMMISSION,

RALEIGH, N. C., Feb. 21, 1870.

SEALED Proposals will be received by the Commissioners of the North Carolina Penitentiary at their office, Raleigh, N. C., until noon of Wednesday the 20th of April, 1870, for the erection of the Penitentiary on the site chosen for that purpose near the city of Raleigh. Bids to be endorsed "Proposals for Building the Penitentiary," and addressed to the care of G. Wm. Welker, Sec. to the Commission. The plan, drawings and specifications may be seen and inspected, and additional information if desired obtained at the office of the Assistant Architect at Raleigh, N. C., or of L. T. Scofield, Esq., architect, Cleveland, Ohio. Bids to be made in the forms prescribed by the Architect, printed copies of which and of specifications may be procured on application to the Architect or Assistant Architect. Bids are invited for the following separate divisions of the work, viz:

1. Stone Masonry and Cut Stone.
2. Brick Work.
3. Plastering.
4. Wrought and Cast Iron Work.
5. Carpenter and Joiner's Work.
6. Painting and Glazing.
7. Galvanized Iron Work and Slating
8. Plumbing and Gas Fitting.

The Quarry is quite near the site of the building. The Secretary and the Commissioners have the lease of the entire quarry for all purposes of the Penitentiary. The Commission will receive bids for the Brick work both to lay the brick, they furnishing the brick, or for the entire job of brick work, the contractor taking four millions of brick already provided by the Commission, at the price paid for them.

Each bidder shall specify what number of convicts he will engage to employ on his contract, and what wages he will pay for them, provided the Commissioners furnish guard and overseer, and board and clothe the convicts.

Each bid to be accompanied with a written guarantee signed by two responsible sureties, and duly stamped. The Commissioners reserve the right to reject any or all bids, to accept or decline to enclose a contract, as to their discretion they may deem it their duty to do.

All the work to be forwarded as rapidly as practicable, and completed at the earliest possible period. The Commissioners reserve the privilege of taking possession of the several parts of the building, from time to time, as soon as in their judgment it can be occupied.

Each bidder will furnish his post office address and hold himself in readiness, with his sureties, to enter promptly into contract on the acceptance of his bid. Copies of the specifications can be had of the Assistant Architect by mailing $5, which sum will be returned when the specifications are returned. The above Fluid has been in constant use for upwards of three years, and has sustained its unrivalled reputation, as a brilliant, non-explosive illuminating agent, though subjected to the severest tests. Being universally conceded to be superior to Kerosene or Coal Oil. It makes a better light and more of it, than any other illuminating compound. Soft, clear, steady and unobjectionable to the eyes. All that is asked is, a fair and impartial trial.

Among the numerous testimonials received read the following:

PHILADELPHIA, March 15th, 1869.

The undersigned, having witnessed the experiments of Messrs. Hale & Co., with their Combination Burning Fluid, take pleasure in commending it to the public. The various tests to which the Fluid was subjected, was in the highest degree satisfactory. We have no hesitation in pronouncing it to be a safe and brilliant illuminating agent. Its cheapness adds to its other good qualities, should it ensure its introduction into every family in the country, where Kerosene Oil is used.

## *LOOK! NORTH CAROLINIANS, LOOK!*

As stated yesterday, the Republican House of Commons, on Wednesday, "squelched" the Committee of the Whole, raised for the purpose of investigating the charges of fraud, bribery and corruption against certain Railroad officials and members of the General Assembly.

The man who has been charged with every possible kind of fraud and corruption, by members of both Houses of the General Assembly, without distinction of party, after running away and remaining absent for months to avoid an investigation into his actions, returns, and how is he received? The man who was so corrupt that a Republican Legislature had said he was unfit to hold the position of Public Printer; the man for whom the Governor had issued his proclamation, announcing to "the the world that he was a criminal and a refugee from justice, (for that is the inference from such proclamations;) this very man who concealed the disposition of six or seven millions of the people's money until the truth is forced from him by the coercive power of an investigating committee; yes, the man notoriously concerned in Florida frauds and in the corruption of the Governor of that State, returns to Raleigh and is received by certain parties, with open arms, with smiles and compliments. The brazen effrontery, the unparalleled impudence of the man, are construed by many into evidence of conscious innocence and honesty!

Forthwith, on his arrival, there is a mongrel caucus called; Littlefield makes a speech, and becomes the leader of the Republican party. No doubt he has planned and shaped the movements of his party since his return.

Look again at those nineteen Senators, huddled together in a room at a Hotel, pledging themselves to rescind the resolution raising a committee to investigate this man's public acts. This man Littlefield was with this crowd of nineteen, and he gave them wine, whiskey and other stimulants, to the amount of a hundred dollars, and then and there he planned and directed the scheme for suppressing the investigation into his own frauds.

In confirmation of this, the very day after this caucus and "drunken revel" of the nineteen, the saintly Senator from Wilkes introduced a resolution to carry the scheme into effect, and in the discussion of the Resolution, Senator Welker, from Guilford, stated in open session, that he *knew the fact*, that nineteen Senators, in the midst of the carousal, had pledged themselves to defeat further investigation. He further said, that he intended the entire people of the State should know who these men were; that, from the Halls of the Senate, their names should go out to the world, branded with the infamy they deserved for attempting to suppress investigation into the stupendous frauds that had been perpetrated on the honest people of North Carolina.

True to the arrangement in this drunken caucus, when Smith's resolution came to a vote, seventeen out of nineteen voted to suppress the investigation, two dodged, and three, who were not in the caucus, voted for it, making that immortal "score" who voted to stop all investigation into the frauds of the man who directed them. But for the scathing rebukes administered by the Democratic and a few honest Republican members, the work would have been consummated, but those who made the attempt are as deeply damned in public estimation as if they had succeeded.

They only failed in their conspiracy because of the scathing exposure of its rascality and villainy, administered by Senator Robbins and others, which made the two or three of the *weak-kneed* abandon their comrades in guilt, and falter in the fulfilment of a villainous pledge.

Having grabbed success, as it were, by the tail in the Senate, Littlefield took courage for his encounter with the Committee of the Whole of the House, knowing, as he did, that his friends would not let him be hurt if they could prevent it. He was put on the stand and questions were propounded to him, and he deliberately gets up and makes a speech; tells the Committee that he objects and protests against the questions. The Chairman decides the questions to be proper and legal; every lawyer in the House, of either side concedes that they are so; but he refuses to answer.

The Committee rises and reports to the House, and the House instructs the Committee to *compel* the witness to answer. He again takes the stand, again protests that the questions should not be asked, and requests *some friend* to move that the Committee rise again. Being pressed to answer, he does so evasively, dodges the point of the interrogation, and, forthwith, a *friend* complies with his request and moves that the Committee rise, and the motion prevails. All this was done on the third day, after two days of quibbling, evasion and the most barefaced impertinence that was ever offered a deliberate body.

The business of the House being resumed, a motion is made to *discharge* Littlefield from further attendance, and that motion was adopted. Then followed a resolution to abolish the Committee of the Whole, and *that* was passed, also. There was never a similar proceeding witnessed before. A witness before the Court, guilty of contumely and impertinence, and at the very time when he was being pressed upon a vital point in the case, is dismissed!—And this, too, when other witnesses had been summoned who would throw much light on the subject of the investigation! When was it ever known before, that a Court would discharge a witness and send him home and leave so important a case unheard?

Littlefield was discharged after notice had been given of the names of other witnesses who would contradict him, and the committee dissolved without having those witnesses examined. Look at the facts. Littlefield was sued on a note in Wake Superior Court, for $3000; he pleaded to the same, employed counsel, and has since, through an agent, actually paid the note, and yet *he could not remember the fact!* He swore that no process was served on him in the matter, whereas the return of the Sheriff's officer shows that process was served on him personally; while a number of witnesses could readily to facts in contradiction of this witness's testimony; yet the committee is disbanded and every possible chance of getting at the facts is cut off!

He could not recollect a three thousand dollar note given to "James Smith," though sued on and paid; nor $1,200 lent Stevens of Craven, but could recollect trifling innocent transactions involving only a few dollars. Such a convenient memory would naturally forget all about seven millions of Railroad bonds! John A. Murrill, put upon the stand, would never have recollected stealing a negro or shooting a traveller, nor would Capt. Kidd ever recollect so small a matter as the scuttling a ship or murdering the crew.

People of North Carolina, think of these things, and think of them in connection with the fact that the bonds are gone and the State's credit ruined.

## *OUT FOR CONGRESS.*

John A. Hyman, colored State Senator from Warren, is out in a card announcing himself a candidate for the *next* Congress, from the 4th Congressional district of this State. We should have supposed John would prefer running for the vacancy in the present Congress, made by the expulsion of Dowdee, unless it be true, as we have heard it intimated, that Governor Holden has concluded not to order an election to fill that vacancy.

We don't know who wrote the card for John, but it takes pretty broad scope and is plain talk. We don't think the prizes will range as high this summer as they did in '68, for a clear track, though probably something may be realized in that line, and it is always prudent to be in time.

We think Johnny McDonald is entitled to a showing, too, this time, also. Too many, however, might make it too expensive to the real candidate, as it is not every one who can afford to spend twelve thousand dollars to go to Congress as Dowdee did.

## *THE WAY THE MONEY GOES!*

LOCK OUT, March 5th, 1870.

MR. EDITOR:—If you will look carefully into the Auditor's Report, for the last fiscal year, you will find many queer things therein, "which were never dreamed of in your philosophy," or in that of any other honest man. Mind, you will not see these things unless you look *carefully*, for the report is only made to answer the requirements of the law, and is studiously prepared to suppress the information the statute intended it should disseminate.

Do you know, that besides *lounges, carpets* and *tea*, "and such other expenses as may be necessary," and as many clerks as any State official may chose to employ; that said officials have *matters* without stint at the public expense? The word "necessary" is the word that these officials so under in limiting the number of their clerks and the sum of their expenditures, and of these necessaries, each official is his own judge. Each employs as many clerks—sons, cousins or cronies, he wishes, (the Legislature knows this and allows it,) makes his own accounts, at will, and the Secretary of State "approves" them, the Auditor "allows" them, and the Treasurer "pays" them, out of the people's money. Our carpet-bag Adj't Genl's, even, seem his livery stable bills a "necessary," and has them paid out of the Public Treasury. (See Auditor's Report, page 190.)

Then comes the waiter's bill:

| | |
|---|---|
| Keeper of the Capitol, | $1010 00 |
| Watchman in the Capitol, | 840 00 |
| Waiters, " " | 318 50 |
| Total, | $2,168 50 |

This was not so in olden times—not until carpet-baggers, scallawags and strangers got the control of the State.

Yours, SCRIBO.

THE WOULD BE ASSASSIN ARRESTED.—Bill Hall, a notorious rascal and a fugitive from justice, was arrested on Sunday last at the house of Wm. Walker, nine miles distant, by Henry Richards, Wm. Turrentine and Joseph Pogue, of this town, who brought the villain to the County jail and had him locked up. Bill refused to surrender, and swore he'd kill the first man that entered the house to take him—but he didn't! He is the same desperado who made the murderous assault on Dr. Montgomery, a month or so ago.—*Bildboro Recorder.*

CATAWBA GOLD.—We were shown last Wednesday, by Dr. A. M. Powell, of Catawba county, two specimens of gold which came from the "Shuford Mine," which Dr. Powell is engaged in working. One specimen was quite pure gold and weighed several ounces, the other was a rich quartz.—Surely, North Carolina is a favored land, if there is one under the sun, in the bountiful supplies of developing wealth, and no other country can boast of more advantages to render a people happy, if her citizens would cease to wander where "distance lends enchantment to the view," to meet with disappointments, and remain at their old homes.—*Statesville American.*

LITERARY ATTRACTIONS OF THE BIBLE.—Rev. Dr. Pritchard's lecture on this subject last night in the new Baptist Church, was attended by a respectable audience, and was highly appreciated. It possessed a high order of literary merit, and was delivered in the Dr's. usual pleasant style.

To-night he lectures on the "Characteristics of Infidelity."—*Wil. Journal*, 9th.

For the Sentinel.

MR. EDITOR:—It is the natural sequence of the organization of some men to have a peculiar fondness for a hyperbolical use of language, or a carelessness in ascertaining the facts that make up a truth. This peculiarity is indulged to an egregious extent by "Republican" of the *Standard*. His statement of the Shotwell Lusk affair is a gross misrepresentation from beginning to end. It walking with head erect and shoulders square to the front, standing at least six feet in his boots, and with a countenance beaming with the unmistakable evidence of truth and honesty is sneaking, perhaps he sneaked. If not, he didn't sneak. He never struck Mr. Lusk, (he never was a Col. but a Capt. in the Confederate Rebel army,) with a large stick; it was a small Ratan. He carries no arms! Mr. Lusk did fire, or at least a pistol fired, *but once*, with no one was hold in the hand of Mr. Lusk, creating but little excitement as any body knows of. It is true a ball went out of said pistol and took effect in Mr. Shotwell's thighs, confining him to his room for several days, because of the soreness that naturally follows a flesh wound, nothing more. There were no threats made by the Democrats, but the Republicans did say, the affair was not over yet.—It is also true that the Leagues have been at their midnight plottings for some time in this part of the State, but it has been with a feeble effort, and grows weaker every night, (for they never work in day time much.)

The Democrats are alive with their natural nobility to every thing that ennobles the "Old North State" and if any reliance can be placed in what men of both sides of the political question say, the bright sun of freedom and justice will soon again dawn upon the glorious old State, and, guided by the hands of honest legislators, will grow brighter as time wears away.

There is no division among the Democrats of this section. There is no excitement, but a great determination to sweep away the last vestige of Radicalism at the next August elections. It is matter of general observation, and conversation, that at many of the election precincts of those counties, until lately strongly Radical, are now unanimously Democratic. Be not afraid of the "good cause" in the West.—Never were we more hopeful of victory.—"By St. Paul, the work goes bravely on."

For the Sentinel.

### *TO THE VOTERS OF THE FOURTH CONGRESSIONAL DISTRICT.*

The undersigned has been solicited by a number of his friends, to announce himself a candidate to fill the vacancy in this district, caused by the resignation of the Hon. John T. Dowdee. The hideous degradation of public life which we see everywhere, just fills alarm, and it will not do to affect or to despise these things and regard them with indifference. But we must not give up—we cannot despair of our country nor of human nature. The very excesses into which bad men are led by their vices, are frequently the means of bringing the community to an impatient sense of the necessity of reform.

If my fellow citizens of the district shall see fit to elect me as their representative, whatever talent and energy I may possess, shall be devoted to the honor and welfare of the people of North Carolina, regardless of race or color.

I am your fellow-citizen,

JOHN W. PAGE, M. D.

Wake County, March 9, 1870.

HON. A. H. STEPHENS.—We are highly gratified to learn that the health of this distinguished Georgian is improving. His great work on which he has been so long engaged, is now in press, and will soon be ready for sale. The great intellect which has been thus employed, affords a guarantee to the public, that the work will be worthy of the author, and afford its readers with matter that they will find highly interesting. We hope soon to see it in circulation.—*Atlanta Intelligencer.*

WANTED—A carpet-bagger to take the place of the expelled Whittemore, in South Carolina. One who is well posted in Bible banging, loud praying, and general dishonesty preferred. Apply immediately to Congress.—*Pomeroy's Democrat.*

MR. WILLIAM H. VAUGHAN, well known in our community as a Musician and Piano Tuner, is now appointed Agent for those splendid, Seven Octave, fine Rose Wood Pianos, built by C. M. Tremaine & Bro. These Pianos will be warranted for six years, and Mr. Vaughan is here ready to keep the instrument in perfect tune, if it should need it. These instruments took the premium at the Virginia State Fair, and without doubt are the best and cheapest instruments in the North or South.

## CITY AND STATE ITEMS.

FRIDAY, MARCH 11, 1870.

☞ THEO. N. RAMSAY, as Business Clerk, is authorized to make contracts and give receipts, &c., &c.

NEW ADS.—Fine lot of fashionable doeskin pants, at Andrews' to be opened on Wednesday next.

Books open for stock in the "Bank of Raleigh," at various points in the State.

Valuable Land in Wake for sale, W. H. Bagley, Commissioner.

Tobacco and Cigars, R. C. Hardie, at Mehegan's old stand on Fayetteville street, keeps the choice brands of tobacco and cigars. We have tried those Bankers, and according to our judgment, and we think it is good in such matters, they are best at the price this side of the war.

Horses and mules at auction, on Saturday, by J. M. Towles.

THE TABLEAUX, &C., AT TUCKER HALL.—We go to press too early to give a satisfactory notice of the Tableaux and Concert at Tucker Hall last night. The attendance was good and the preparations for a fine entertainment having been completed, a pleasant as well as pecuniarily successful result is almost certain.

The exhibition continues to night—with a change of programme.

AN ORNAMENT TO THE CITY.—We took a survey of the new Livery Stables of Messrs. Geo. W. Wynne & Co., yesterday afternoon, and found the buildings with all the surroundings and fixtures well arranged and adapted to the use intended.

These stables are situated on Morgan Street, near Blount, and adjoining the old Ray Hotel. The buildings were designed by C. S. H. Appleget, architect, the brick work done by Messrs. Cunninggim & Gallagher, the wood work by Mr. Thomas Owen, and the roof by Lougee.

The front building is 72 by 44 feet, two stories high, and the extension 86 by 36, containing 38 stalls, with feed room above. In the rear are extensive sheds for carriages and some 20 open stalls for horses in the summer.

The office is in the centre of the front building below, and on each side are harness rooms, &c. Above are rooms for rent, one of which will be used as a harness shop.

The whole building is lighted with gas, and a pump in the front room supplies abundance of water for the establishment. Altogether, these stables are well arranged, strongly constructed, and the style is in such taste and proportion as to render them an ornament to the street on which they are situated.

GOOD NEWS.—The Senate yesterday passed the House bill allowing the Treasurer to "borrow" $150,000 from the special tax fund to meet the current expenses of the State, in other words to pay off the "hands" their accumulated *per diem*. The bill had been introduced in the House and run through in threshing machine style under a suspension of the rules, and sent to the Senate. On its announcement, in the Senate, the rules were immediately suspended and it was put through the several readings so fast that it was enough to make one's head swim to witness the process. The Treasurer under this act, will begin to pay off to-morrow, and we expect to witness a grand old time for a few days.

ON DIT that the "Organ" is about to pass into the hands of a new grinder or grinders; so we may listen out for the old song set to a new tune, at an early day.

NEW ARRANGEMENT.—An accommodation car will, we understand, be run in connection with a freight train from Raleigh to Goldsborough, hereafter, leaving Raleigh about 8 o'clock, P. M., connecting with the train for Wilmington, at Goldsboro, so that passengers will not be delayed at Goldsborough, in going to Wilmington.

REPRIEVED.—Gov. Holden has respited the negro woman that was to be hung in Hillsboro to-day, to the 6th of May, on account of her peculiar condition.

A BOY was killed by falling under a car in attempting to jump from the train lately on the Wilmington and Weldon Railroad. He had jumped on the train without the engineer's knowledge.

**Walled in with Paper!—Why are the** hair coloring preparations kept dark? Simply because the light decomposes them and exposes their foul ecriment. Hence the bottles are jacketed with paste and paper. PHALON'S VITALIA, OR SALVATION FOR THE HAIR, on the other hand is as clear and transparent in the sunshine as in the shade. It revives the natural color in every time-bleached fiber, and does not stain the skin. Sold by all druggists and fancy goods dealers.

**A Wrong Impression Corrected.**

Many persons believe that there is no value in anything that does not come from "the North." How humiliating! However, this impression is being gradually corrected. It is now admitted that no remedial Agent has ever been discovered, North or South, that possesses, in so eminent a degree, the power of eradicating from the system all foul distemper, as DR. TUTT'S SARSAPARILLA AND QUEEN'S DELIGHT. The secret is, *it assists nature to do this through its own channels*. It is composed of vegetable substances alone, every one of which grows on Southern soil. It is the BLOOD PURIFIER OF THE AGE.

STRUGGLING AGAINST HARD TIMES.—One of the most energetic, hand-to-hand fights against the "hard times" that are so sorely pressing many unfortunates of our country, that we have yet become aquainted with, is that displayed by Molly Hobson, a poor widow, with three girl children, one of them an idiot, residing about eight miles from Raleigh. Molly has no way of getting bread for her children by any work to be obtained in her neighborhood, so she takes her axe, goes into the pinewoods, cuts a quantity of "fat pine" for kindling, and brings it to Raleigh and peddles it out at five cents a bunch. She brings it swung on her own shoulders, having neither horse nor ox, and generally brings enough to sell for about fifty cents. With this money she buys meal and shoulders it home to make bread for her children, who seldom get anything else.

She was in town yesterday, with her usual supply of "light-wood," and said that neither herself nor children had had anything to eat that morning, and would not have until she returned home with the meal she procured with the proceeds of her light wood; and we believe she spoke the truth.

We do hope that any of our grocers who may sell meal to Molly, will not be very strict about balancing the scales, as an extra hoe cake to her poor family would be a God send; and we think an extra quart or two of meal in her wallet would be a sort of accepted order on Heaven for a blessing on him who might put it there.

GO FROM HOME TO LEARN &C.—The New York Illustrated *Police News*, gives a story with illustrations, of two young ladies in our city of Raleigh being bitten to death by rats. We had not heard of the circumstance, though tolerably diligent in our searches for "something new." It is likely we are indebted to some carpet-bag correspondent to that sheet for the report going out, as there have many equally improbable stories gone to Northern papers from the South, through that channel.

Although there has been no young lady killed here by the means stated, we are free to admit that most of our young ladies are sweet enough to be bitten, and some of them have been "badly bitten," by some of the class we have suggested as originating the above canard.

NEGRO KU KLUX.—The Hillsboro' *Recorder* says: "We learn that seven negro Ku Kluxers have been identified and arrested in Alamance, charged with belonging to the crowd that hung Wyatt Outlaw."

The same paper says: "The evidence of negro Ku Klux accumulates. A party of disguised men visited the Poor House a few nights ago most of whom a negro woman in the Poor House identified as colored men. She says they were all colored folks. They did not hurt anything."

Germain to the above, the Newbern *Times*, of Wednesday says, "Don't we know that a large party of these disguised negroes killed a colored man in Alamance county a few days ago? It is true there were a few white men mixed in; but it is said the negroes were disguised."

How the *Times* became posted in the facts so soon, we are unable to conjecture; we suppose he has good grounds for what he says.

THE WAY THE REPUBLICANS DO IN LOUISIANA TO MAINTAIN THE STATE CREDIT.—Ex-Auditor Wickliffe, being charged with embezzling and misappropriating, was put in jail—and released only on fully accounting for the State bonds and coupons—and then, too, on heavy bail, to answer for his crimes and misdemeanors. Here, in North Carolina, it is thought to be no offence to rob the Treasury and appropriate the public funds to private use, at least in the estimation of some of our Legislators, and every obstacle is thrown in the way of a full investigation and exposure.

WANTED.—The *Journal* says, the Mayor of Wilmington has advertised for a new City Clerk and Treasurer for that city, the old incumbent, Durfee, having played Deweese's game by resigning, on the report of a certain investigation Committee appointed to look into his financial matters. One by one!

RECOVERING.—We learn from the *Journal* that the persons injured by the bursting of a shell in Wilmington, mentioned in our telegraphic dispatches, a day or two ago, are none of them dead, but are doing well.

AMUSING.—William Kellogg, a colored alderman of Wilmington, sued a merchant of that city, recently, for calling him "William," instead of "Mr. Kellogg," but there being no statute on the subject, the case was dismissed. Whether the suit was for *damages* or *assault and battery*, the *Journal*, who amusingly reports the affair, does not state.

We learn from the Charlotte *Times*, that the Buffalo Paper Mill Post Office, Cleveland county, North Carolina, has been reopened.

**Shaking and Burning.**

It is not necessary to journey from the tropics to Alaska in order to experience the extremes of heat and cold. Thousands undergo all the inconveniences of this thermometrical change every day, or every other day, as the case may be, without the trouble of moving over the threshold. A word with these involuntary shakers. What are they doing to expedite their return to a medium temperature?—to break the chills and banish the fever? Are they dosing themselves with quinine, thereby imperiling the soundness of their bones and impairing the vigor of their brains and nervous system? Some of them are, no doubt, but not the majority of them, it is believed. The value of Hostetter's Stomach Bitters as a harmless and certain specific for fever and ague is understood and appreciated in all parts of the country where intermittents prevail. The residents of such localities begin to take it early in the spring as a protection against the miasma by which they are surrounded; not all of them, perhaps, for a blind adherence to error is the specialty of some people, but the greater number.

If there is any fixed fact in therapeutics, it is this: that the Bitters are a tar to ter safeguard against all the varieties of periodic maladies produced by unwholesome exhalations than any drug or compound in the materia medica of the profession. This assertion is made with all due respect to the faculty, but being an important truth, and one that nearly concerns the health of large settlements in various parts of the country, and indeed of the public at large, it is made fearlessly. Founded on ample and unexceptionable testimony, it defies disproval.

To break up chills and fevers, as well as to prevent them, there is nothing so reliable as this wholesome vegetable restorative.

SENATE.—The resolutions of the Texas Legislature in favor of a postal telegraph were presented.

Mr. Trumbull from the Committee on the Judiciary, reported on House bill for the admission of Georgia. He stated that the Judiciary Committee were opposed to any restrictions but in the face of the second decision of the Senate, they would make no counter report. This bill imposed the same conditions as in the case of the Virginia and Mississippi bills, the only addition being the first condition of Mr. Bingham's amendment. He asked the previous question of the bill.

Mr. Boreman objected, and it went over.

Several other senators desired to take part in the discussion.

The funding bill was resumed.

The Senate adjourned.

HOUSE.—Thirteen Pennsylvanians petition for a reduction in the tariff on tea, sugar and coffee.

The House refused a second reading to the air line road bill.

Drake, Thayer and Cameron spoke against it. Turnbull, Edmunds, Ferry and other favored Bingham's amendment.

HOUSE.—Air-line railroad is up. Swann yielded to Julian to introduce a bill which would open 8,000,000 acres of land and which he supposed there would be no opposition. PRATT'S "ASTRAL" OIL.

UNLIKE MANY OTHER ILLUMINATING Oils, is perfectly pure, and free from all adulterations or mixtures of any kind. It emits no offensive smell while burning, gives a soft and brilliant light, and can be used with the same assurance of safety as gas. Chemists pronounce it the best and *safest* Illuminating Oil ever offered to the public; and Insurance Companies endorse and urge upon consumers the use of the "Astral" Oil in preference to any other. It is now burned by thousands of families, and in no instance has any accident occurred from its use; a lamp filled with it, if upset and broken, will not explode. *To prevent adulteration*, the "Astral" Oil is packed only in the Guaranty Patent Cans, of 1 gallon and 5 gallons each, and each can is sealed in a manner that cannot be counterfeited. Every package with uncut seal we warrant. Be sure and get none but the genuine article, Pratt's "Astral" Oil, for sale by dealers everywhere, and at wholesale and retail by the proprietors

Its Policies are liberal; its premiums moderate and made easy; its losses are paid promptly and its investments are made on the most solid basis, being principally in improved real estate worth twice the amount insured, paying ten per cent per annum.

*All its Policies are non-forfeitable and participate in profits from the beginning.*

Dividends declared and applied annually to policy holders on the contribution plan.

The Company is strictly Mutual, and the profits of its business are paid not to stockholders but to its policy holders.

An equitable surrender value paid to all who through misfortune are unable to keep up their policies.

DR. R. BURKE HAYWOOD, — Examining Physician.
GEN. S. B. BUCKNER, — Manager Southern Dep't.

The Globe has peculiar claims upon the Southern country, from having first introduced the non-forfeiting feature in all its policies. Its President, Mr. Pliny Freeman, was the inventor of the ten-year, non-forfeiture plan, and introduced it in the Company with which he was then connected.

The Globe takes no notes; but receives its premiums in cash, and pays its policies in cash, without deduction.

To those desiring it, the Company will issue policies, registered and certified by the Superintendent of the Insurance Department of New York, as "secured by pledge of public stock."

SUCCESS THE CRITERION!

THE BEST MANAGED IS THE BEST COMPANY!

DE SOTO MUTUAL LIFE INSURANCE
COMPANY,
OF ST. LOUIS, MISSOURI.
JAMES P. LUCAS, President.

CAPITAL STOCK, (PAID UP.) $150,000.00!

Stockholders bound for Double the Amount of Stock!

$100,000 DEPOSITED WITH THE INSURANCE DEPARTMENT OF MISSOURI.

THE MOST SUCCESSFUL CASH COMPANY IN THE WEST!

The Stock of this Company is owned by the Capitalists of Louisville, Ky., and St. Louis, Mo. It is emphatically a Western and Southern Institution.

The DE SOTO has no desire to exalt its merits over those of other good Companies, nor to prosper on the decline of others, laboring in the same fields, and for the same grand object. Confident of its equal advantages with others, of whatever age or standing, it is willing to labor honorably for success, and hopes to deserve the public confidence by its energy, industry, and liberal spirit.

From the Missouri Republican.

"Few Companies have started out with such gratifying and flattering prospects of success, and under such favorable auspices. The Company has been extremely fortunate in the selection of its Directory. Its President, JAMES B. LUCAS, needs not a word of commendation from us. He enjoys a general reputation as a gentleman of wealth, unquestioned integrity, practical good sense, sound judgment and splendid business capacity.

The Directors rank among the first class of our merchants, bankers and citizens, as men of capital, financial ability and experience; men of probity and unblemished reputation. In the character of such a Directory, the community have the best guarantee that the business of the Company will be prudently and judiciously managed."

Policies issued on all the popular plans and all Non-Forfeiting.

Policy-holders may travel by the usual modes of conveyance, either by land, river, lake or coastwise, to any portion of the United States and Territories, the settled portions of the two Canadas, Nova Scotia and New Brunswick, and in time of peace may cross and recross the Atlantic Ocean by the usual passenger routes to, and travel and reside within, any portion of Europe.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

| JOHN HANCOCK, | 18,27 |
| THE NATIONAL, | 63,48 |
| THE ÆTNA, | 13,41 |

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

**"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."**

**"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."**

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 569 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,337 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars and had amassed solid, securely and profitably invested net assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
